Hi Kathryn -

We are using the Award ID to look up the grants on USASpending and pull a few budget related fields. We were able to pull this info for all except 1 EPA grant. Could you please provide columns J, K, and L in the attached?

Based on the other grants from EPA with this description, I believe they should be as follows:

- 068-0108
- 41.0: Grants, subsidies, and contributions
- 0057: ENVIRONMENTAL JUSTICE

Thank you,
Brandon

Hi Brandon,

Updated grants reporting attached.

Removed:

- Contracts. (I reported those a few days ago to Katrina Lloyd so those have been updated on her end.)
- 1 row pending cancellation for Climate Justice Alliance on 2/13 – I couldn't find this in our internal records so I think it's a duplicate of 84082101, so I deleted that row

Changes:

Several of the previous-reported cancellation "ceiling" and "savings" amounts have changed from our previous grant reports, so I want to explain why.

"savings" – partly related to delays in USASpending, and our previous reporting was based on usaspending. Partly due to minor outlays happening post-cancellation. (The grantees have 120 days after "termination" to close out.)

"ceiling" – the previous ceiling numbers were pulled from USASpending in early Feb, and the values have

been updated since then. The new values match our internal records *and* they match the CURRENT values shown in USAspending.

The exception is this one grant where the ceiling does not match USAspending: 95314201. [GRANT to NATIONAL WILDLIFE FEDERATION | USAspending](#)

USAspending says the obligated amount is \$8M, but our internal records show the total to be \$12M. I put \$12M as the ceiling for that one, because so far our internal records have always ended up matching USAspending, just with a delay.

Best,
Kathryn

Also, I'm noticing that for some rows I reported back in Feb, our grants team now has slightly different ceiling and \$savings amounts. So I'm going back through this line by line, hoping to get it back to you EoD.

I was just doing a quick review of the info I entered last night, but I am noticing some discrepancies. Are all of these grants? A few of them look like contracts. Also, there are duplicates on the PIIDs. Could you please validate these?

Now we have a grants update! We have made a big push on these over the last week – update attached, getting us up to \$369M total savings on grants, and there should be more by next week.

Note that I did update a few of the prior rows previously submitted by Erica, in the following way: when "Awarded?" = No, that means that this was a draft award in our internal grants system, that we cancelled before it was awarded.

In the previous report, "potential savings" for some of these was listed as \$0, but I changed them to be the ceiling amount of the award in this submission. This is debatable but I discussed with Erica, and we think treating this as savings is more accurate (and consistent with the 1st row of the spreadsheet where we did treat this cancelled pending grant as savings).

Best,
Kathryn

Hi Katrina, you have it right. I looked up a few of these in FPDS, and what I notice is that when there is no "reference" ID (i.e. it's "0" in the spreadsheet), then the contract # column is the PIID in FPDS. But when there is a reference ID, then that reference number is the PIID in FPDS, and then the "contract #" is the "referenced IDV ID" in FPDS, as you noted.

Thanks for forcing us to understand this better – I think in the report we are getting from the staff, they are mixing up the "contract#" and "reference" columns for the rows where contracts that have a reference. All the info is there though, sorry this is confusing.

For example search for PIID 68HERH23F0127 as a good example – the reference "68HERH19D0029" is the referenced IDV. But if you search for PIID: 68HE0P24P0007 – it has no reference ID in our spreadsheet, and no reference in FPDS.

The part I could not get to match with FPDS is the mod#. For example, when you search for PIID 68HERH23F0127, you can see mod P000014, but not P000013 – My guess on this is that the mod number increased when we cancelled the contract (and you can see the mod date is 3/10), and FPDS does not store every mod.

Hi Kathryn,

Thank you for the updated EPA submission. Please let me know if I have the correct understanding of how EPA's Contract # and Reference PIIDs are assigned. I'm interpreting this latest submission as EPA has awarded an IDIQ or BPA. For the IDIQ or BPA, a "Reference PIID" is assigned. Any "orders" issued off of the IDIQ or BPA are assigned a "Contract #." Both the Reference PIID and associated Contract # will be different numbers. However, there will be instances where Contract #s will be the same but associated with different Reference PIIDs.

Essentially, it looks like the Contract numbers are being reused but associated with different Reference PIIDs. If this is correct, please confirm if in these instances, the Contracts are separate and distinct with different contract requirements.

Thank you!

Hi Josh,

Improved list attached. I was only including the contract number before, but now I've started using the column "Reference PIID" to hold a combined "order number_" "mod number" for each contract - I am told that all 3 numbers (contract, order, mod) are required to make sure there are no duplicates.

But there was actually 1 duplicate! I have used "strikethrough" on it in line 55, and it has no numbers in the contract value columns for that one.

Except for the strikethrough, the attached list is the same as what I sent you on March 22, except with that bonus "order_mod" Reference column filled in.

I also added a column "Already in Josh's list?" = yes, if this was already reported in the table you pasted in this email thread, to make it easier for you to reconcile.

(I did not include the POLITICO "CASE_NAM" entries that are in your list, because I wasn't sure what those are, and they're not in our internal list – I'm guessing those were maybe GSA following up on the POLITICO subscription cancelations?)

Yes, we found it in USASpending, but it says its "not linked to any federal accounts", so we don't have the other information. I will find an entry in column L that aligns, and column K is pretty much the grants for all entries, so we should be all good.

Thank you very much!

Hi Kathryn -

We are using the Award ID to look up the grants on USASpending and pull a few budget related fields. We were able to pull this info for all except 1 EPA grant. Could you please provide columns J, K, and L in the attached?

Based on the other grants from EPA with this description, I believe they should be as follows:

- 068-0108
- 41.0: Grants, subsidies, and contributions
- 0057: ENVIRONMENTAL JUSTICE

Thank you,

Brandon

Hi Brandon,

Updated grants reporting attached.

Removed:

- Contracts. (I reported those a few days ago to Katrina Lloyd so those have been updated on her end.)
- 1 row pending cancellation for Climate Justice Alliance on 2/13 – I couldn't find this in our internal records so I think it's a duplicate of 84082101, so I deleted that row

Changes:

Several of the previous-reported cancellation "ceiling" and "savings" amounts have changed from our previous grant reports, so I want to explain why.

"savings" – partly related to delays in USASpending, and our previous reporting was based on usaspending. Partly due to minor outlays happening post-cancellation. (The grantees have 120 days after "termination" to close out.)

"ceiling" – the previous ceiling numbers were pulled from USASpending in early Feb, and the values have been updated since then. The new values match our internal records *and* they match the CURRENT values shown in USASpending.

The exception is this one grant where the ceiling does not match USASpending: 95314201. [GRANT to NATIONAL WILDLIFE FEDERATION | USASpending](#)

USASpending says the obligated amount is \$8M, but our internal records show the total to be \$12M. I put \$12M as the ceiling for that one, because so far our internal records have always ended up matching USASpending, just with a delay.

Best,

Kathryn

Hi Brandon – thanks. Now I know why we were so behind on contract reporting – because they were in the grants reporting sheet!

Also, I'm noticing that for some rows I reported back in Feb, our grants team now has slightly different ceiling and \$savings amounts. So I'm going back through this line by line, hoping to get it back to you EoD.

I was just doing a quick review of the info I entered last night, but I am noticing some discrepancies. Are all of these grants? A few of them look like contracts. Also, there are duplicates on the PIIDs. Could you please validate these?

Now we have a grants update! We have made a big push on these over the last week – update attached, getting us up to \$369M total savings on grants, and there should be more by next week.

Note that I did update a few of the prior rows previously submitted by Erica, in the following way: when “Awarded?” = No, that means that this was a draft award in our internal grants system, that we cancelled before it was awarded.

In the previous report, “potential savings” for some of these was listed as \$0, but I changed them to be the ceiling amount of the award in this submission. This is debatable but I discussed with Erica, and we think treating this as savings is more accurate (and consistent with the 1st row of the spreadsheet where we did treat this cancelled pending grant as savings).

Best,
Kathryn

Hi Katrina, you have it right. I looked up a few of these in FPDS, and what I notice is that when there is no "reference" ID (i.e. it's "0" in the spreadsheet), then the contract # column is the PIID in FPDS.

But when there is a reference ID, then that reference number is the PIID in FPDS, and then the "contract #" is the "referenced IDV ID" in FPDS, as you noted.

Thanks for forcing us to understand this better – I think in the report we are getting from the staff, they are mixing up the "contract#" and "reference" columns for the rows where contracts that have a reference. All the info is there though, sorry this is confusing.

For example search for PIID 68HERH23F0127 as a good example – the reference "68HERH19D0029" is the referenced IDV. But if you search for PIID: 68HE0P24P0007 – it has no reference ID in our spreadsheet, and no reference in FPDS.

The part I could not get to match with FPDS is the mod#. For example, when you search for PIID 68HERH23F0127, you can see mod P000014, but not P000013 – My guess on this is that the mod number increased when we cancelled the contract (and you can see the mod date is 3/10), and FPDS does not store every mod.

Hi Kathryn,

Thank you for the updated EPA submission. Please let me know if I have the correct understanding of how EPAs Contract # and Reference PIIDs are assigned. I'm interpreting this latest submission as EPA has awarded an IDIQ or BPA. For the IDIQ or BPA, a "Reference PIID" is assigned. Any "orders" issued off of the IDIQ or BPA are assigned a "Contract #." Both the Reference PIID and associated Contract # will be different numbers. However, there will be instances where Contract #s will be the same but associated with different Reference PIIDs.

Essentially, it looks like the Contract numbers are being reused but associated with different Reference PIIDs. If this is correct, please confirm if in these instances, the Contracts are separate and distinct with different contract requirements.

Thank you!

Hi Josh,

Improved list attached. I was only including the contract number before, but now I've started using the column "Reference PIID" to hold a combined "order number" _ "mod number" for each contract - I am told that all 3 numbers (contract, order, mod) are required to make sure there are no duplicates.

But there was actually 1 duplicate! I have used "strikethrough" on it in line 55, and it has no numbers in the contract value columns for that one.

Except for the strikethrough, the attached list is the same as what I sent you on March 22, except with that bonus "order_mod" Reference column filled in.

I also added a column "Already in Josh's list?" = yes, if this was already reported in the table you pasted in this email thread, to make it easier for you to reconcile.

(I did not include the POLITICO "CASE_NAM" entries that are in your list, because I wasn't sure what those are, and they're not in our internal list - I'm guessing those were maybe GSA following up on the POLITICO subscription cancelations?)

Subject: Who can reverse/stop payments?

Hi there,

I'm getting purely theoretical questions about worst-case scenarios... (E.g. rogue HR staffer brings their friend back from admin leave, who can solve this)

And one of the questions is about payments – who can stop a payment? I realize there might be a different go-to person for P-card vs travel vs contracts... and I realize the most likely scenario is you'd delegate and ask someone else to do it. But who is the most senior person who ***has access*** to be able to fix a weird rogue payment issue? E.g. if you (Gregg) have access, even though you never use it and can barely remember the url, that's ok, I'll put you!

Thank you,
Kathryn

Change the word grants (**bolded**) to contracts or federal funding. U Penn is all contracts in this batch

Defer to May on the rest

The Trump administration has paused approximately \$175 million in **grant** awards to the University of Pennsylvania. UPenn infamously permitted a male to compete on its women's swimming team, overturning multiple records hard-earned by women, and granting the fully intact male access to the locker room

This is NOT the result of the [Title IX investigation launched by the Department of Education](#). UPenn is still at risk of losing all of their federal education program funds because of those investigations. This is immediate proactive action to review discretionary funding streams to those universities.

The **grants** paused were from DOD and HHS.

San Jose State:

- ALL federal awards (1 grant, 2 contracts) are paused under SWOs: (1) EPA, \$99.7K grant award for drinking water studies; (2) DHS, \$977K contract for the terrorist and serious criminal database support (**note, if you all deem we should turn this back on, we can do that immediately given criticality - it's just a simple email given we didn't terminate**); and (3) DoD, \$17.4K contract for business applications and IT services

- total excluding DHS (if you ask to turn back on given criticality): ~\$120K

U of Pennsylvania:

- 7 contracts were stop worked, 1 HHS and 6 DoD

- 6 DoD are non-mission critical (approved by SECDEF); \$26.5M

- 1 HHS for \$146.3M for pre-clinical infectious disease studies. This is an IDIQ (ie just a big contract that many task orders are drawn against), with the only drawn task order for animal infectious disease study)

Comms –

Can we get something going on Twitter in a short bit? Stephen request. POTUS wants to see more action against universities.

- Today, we have paused ALL grant awards to San Jose State which continued to play a male athlete on the female volleyball team, including access to intimate, overnight spaces. [Side note, all awards means \$100k of EPA funding. **Josh**, can you confirm whether this is paused or *revoked*?]
- Also today, we are pausing tens of millions from UPenn, which permitted a male to compete on its women's swimming team, overturning multiple records hard-earned by women, and granting the fully intact male access to the locker room. [**Josh**, can you confirm when we have a dollar amount and confirmation of the pause?]

Thank you!!

Dan,

I triaged the pending grants. The yellow items probably require review. The red probably need to be cancelled/not awarded.

Interested to get your thoughts.

Thanks,

Tony

Tony, I added a column that included my comments on each one. You will see that most align with grants we are already planning to terminate or are on the list under leadership review. After you get a chance to review, we can discuss more tomorrow if you have any follow-up questions.

Dan
